JOB MARKET PAPER	[3] Sachin B. Badole , Martin D. Heintzelman. "Rooftop Solar or a New Kitchen - Do Rooftop Solar Systems Capitalize into Home Values?" This paper estimates the impact of residential rooftop solar systems on housing resale prices in Delaware and examines heterogeneity across system attributes. We use single-family home transactions and solar installation data to estimate solar price premiums using both hedonic and repeat-sales models. We find that homes sold with solar systems have an average price premium of 7.6% (\$22,379) when not controlling for recent home renovations, and 5.6% (\$16,613) when controlling for them. These premiums exceed the average net installation cost of solar systems in Delaware (\$14,781), implying that homeowners recover approximately 112%–125% of their solar investment upon resale. Capitalization is strongest within the first three years after installation and declines thereafter. Solar value does not disappear with age; rather, it shifts from capitalized resale value to realized electricity bill savings. We also find that premiums are higher for owned than leased systems and are larger in metropolitan areas. The findings provide new evidence on solar capitalization in a low-adoption market and offer insights for homeowners, policymakers, and solar market stakeholders.

FELLOWSHIPS AND AWARDS	• Xu Ping & Ming Graduate Fellowship, University of Delaware 2026 • Stavros Howe Memorial Grant, University of Delaware 2026 • Three Minute Thesis (3MT) Competition, Second Place (Judges' Award) 2026 and First Place (People's Choice), College of Agriculture and Natural Resources, UD • Graduate Student Travel Award (×4), University of Delaware 2023-2026 • NAREA 2024 Student Scholarship 2024 • Environmental and Energy Economics Diversity Fellowship 2022 UC Berkeley-Soan Summer School • Scholarship for higher education (merit-based) 2019	
PRESENTATIONS	"Rooftop Solar or a New Kitchen - Do Rooftop Solar Systems Capitalize into Home Values?" • AAEA Conference at Kansas City, Missouri, USA July 2026 • WCERE 2026 Conference at Carcavelos-Cascais, Portugal June-July 2026 • NAREA Conference at Red Bank, New Jersey, USA June 2026 • Policy Conference at UD, Delaware, USA April 2026 • 3MT Competition at UD, Delaware, USA March-April 2026 "Willingness to Pay for Residential Rooftop Solar Systems: Evidence on Ownership versus Leasing Contracts" • USAEE Conference at Pittsburgh, Pennsylvania, USA November 2026 • AERE@SEA Conference at Houston, Texas, USA November 2026 "Heterogeneity in Preferences for Wind and Solar Development" • NAREA Conference at Burlington, Vermont, USA 2025 "Co-adoption of solar panels and electric vehicles: Evidence from California" • NAREA Conference at Rehoboth Beach, Delaware, USA 2024 "Willingness to Pay for Solar Adoption: Economic, Ideological, Motivational, and Demographic Factors" • AERE@WEIA Conference at San Diego, California, USA 2023	
DISCUSSANT	WCERE 2026 Conference at Carcavelos-Cascais, Portugal June-July 2026 AERE@WEIA Conference at San Diego, California, USA 2023	
TEACHING EXPERIENCE	Head Teaching Assistant, University of Delaware Spring 2026 • Environmental Economics (APEC/ECON 343) Teaching Assistant, University of Delaware Fall 2025 • Environmental & Natural Resource Economics (MAST/ECON 675) Guest Lectures • APEC/ECON 343: Stated-Preference Methods & Applications; Game Theory; International Environmental Agreements Spring 2026 • MAST/ECON 675: Stated-Preference Methods & Applications Fall 2025	

	Research Mentorship • Mentored M.S. student Simone (Eleanor) Harrison (2024–2026) on thesis research, providing guidance on research design, data acquisition, data cleaning, econometric analysis, and coding review.	
RESEARCH EXPERIENCE & EMPLOYMENT	Research Assistant to Prof. Martin D. Heintzelman, UD 2021-present Research Assistant to Prof. Xiaoyang Long, UW-Madison Spring 2021 Research Assistant to Prof. Hessam Bavafa, UW-Madison Fall 2020 Chemical Process Engineer at HPCL in Mumbai, India 2015-2017	
WORKSHOPS	RFF Workshop: Transportation Engineering, Economics and Policy 2026 PFAS Workshop: PFAS Drinking Water Regulations and Resources in Delaware 2025 Workshop: Communications Training for UD Researchers 2024 Workshop: BREAD-IGC Virtual PhD Course on Environmental Economics 2023 Workshop: International Teaching Assistant (ITA) training program at UD 2021	
UNIVERSITY SERVICE	Service and Leadership at University of Delaware • Ph.D. Senator - Graduate Student Government 2025-present • Fellow at the Gerard J. Mangone Climate Change Science & Policy Hub 2025-present • Graduate Student Mentor, Department of Applied Economics & Statistics 2024-present • Volunteer at the Center for Experimental & Applied Economics (<i>CEAE</i>) 2023-present	
PROFESSIONAL SERVICE	Referee: <i>Energy Economics</i>, <i>Utilities Policy</i> Abstract Reviewer: AERE@SEA, USAEE Annual Conference	
MEMBERSHIPS	<i>AERE</i> ; <i>NAREA</i> ; <i>AAEA</i> ; <i>AEA</i>	
SOFTWARE	Stata, R, Python, ArcGIS Pro, Ngene, Qualtrics, LaTeX	
LANGUAGES	English, Marathi, Hindi	
CITIZENSHIP	India U.S. Work Authorization: J-1 Visa
